

POSITIVE PEACE

A Rotary Seminar, October 14-16, 2021

Rennes, France

Peace is more than the absence of conflict or violence. It is a positive participatory process which promotes dialog, in a spirit of humanity, mutual understanding, and justice for all.

Positive Peace, A Rotary Seminar, is an English language three day gathering at the Rennes School of Business that will bring together 10 young Americans and 20 young French people to work together to understand the concept of Positive Peace. Attendees will be graduate school students or young professionals with an interest in the subject of peace and the work of international organizations.

The seminar's objectives for the attendees are:

- **To acquire knowledge and concrete tools to be able to manage conflicts when they arise in their professional or personal life.**
- **To apply and spread the message of Positive Peace within their own networks and communities.**
- **To become an ambassador of Peace at home, in their country, and around the world.**

Through case studies, facilitated discussions, and interactive scenarios, the participants will be able to learn how the concept of Positive Peace works, and how they might adapt it to their own lives.

To close the seminar, former French Prime Minister Jean-Pierre Raffarin will be presenting the ideas developed by his Leaders for Peace Foundation.

The number of spaces is limited. Register by June 30. Those whose application have passed initial review will receive a confirmation with the practical details by July 15, 2021.
